Samarth Amale

Aspiring Data Analyst

samarthamale2002@gmail.com 7038849608 Pune, Linkedin GitHub Portfolio

SUMMARY

Aspiring Data Analyst with a strong foundation in Python, SQL, Excel, and Power BI. Skilled in data cleaning, exploratory data analysis, visualization, and creating interactive dashboards to generate meaningful business insights. Experienced in analyzing real-world datasets, building KPI reports, and identifying trends to support data-driven decision-making. Eager to apply analytical skills and contribute to solving business problems through data.

EDUCATION

B.Tech - Data Science 2023 – 2026
Dr. Babasaheb Ambedkar Technological University Lonere, Maharashtra, India

TECHNICAL SKILLS

Programming Languages
Python, SQL

Data Analysis
Data Cleaning, Preprocessing, EDA, Feature Engineering, Statistical Analysis, Outlier Detection (IQR)

Database & Query
SQL (MySQL), Joins, Subqueries, Aggregations, Window Functions, CTEs

Core Competencies:
Problem-Solving, Analytical Thinking, Data Storytelling, Pipeline Automation

Python Libraries
Pandas, NumPy, Matplotlib, Seaborn

Visualization Tools
Power BI (DAX Measures, KPIs), Matplotlib, Seaborn

Tools & Technologies
Streamlit, Excel, GitHub, Jupyter Notebook

CERTIFICATES

Python Programming
Innomatics Research Lab

AIML Foundation Course
Reliance Foundation Certification

Power BI
Innomatics Research Lab

Oracle Cloud Infrastructure 2025 Certified
Generative AI Professional

PROJECTS

Bank Marketing Campaign – Exploratory Data Analysis
Customer Subscription Analysis | Python, Pandas, NumPy, Matplotlib, Seaborn

- Analyzed **45,211 bank customer records** to identify key factors influencing term-deposit subscription.
- Cleaned data by handling **missing values, duplicates, outliers, and class imbalance**.
- Performed **univariate, bivariate, and multivariate analysis** with Matplotlib and Seaborn visualizations to uncover customer segments.
- Found that **previous campaign success, education, loan status, and contact method** drive subscription; recommended targeting high-response segments.

Blinkit Business Dashboard
Power BI | Power Query | DAX | Data Visualization | Business Analytics

- Built an **interactive Power BI dashboard** analyzing sales, product categories, outlet performance, and customer ratings.
- Cleaned data with **Power Query** and created DAX metrics such as **Sales per KG, Profit Margin, and Average Rating**.
- Designed **KPI cards, slicers, and item-level tables** to compare outlet tiers, Low Fat vs Regular products, and actual vs target sales.

StayPoint Hospitality: Hotel Reservation & Operations Analytics
Relational Database Architecture & Business Intelligence | MySQL

- **Designed a 6-table normalized MySQL database** modeling **2,800 bookings and 3,200 stays across 25 properties**.
- **Analyzed ₹4.58 Cr in gross booking revenue** using SQL joins and aggregations; **Website and Mobile App channels contributed over 80%**.
- **Identified a 31.94% operational loss rate** from cancellations and no-shows, with property-level rates ranging from **19.82% to 39.20%**.
